Employer Credit For COBRA Subsidy Report Form For The Month Of: _____

The ARRA makes substantial, but temporary, changes to the rules governing the continuation of health coverage under COBRA. Most notable is that employers are required to facilitate a federal subsidy of COBRA premiums beginning March 1, 2009. The subsidy will cover 65% of the monthly premium, for a period of up to nine months. Employers will subsidize the remaining 65%, but have the right to recover the subsidy amount from the federal government. To ensure that you are handling this credit correctly and reporting the correct amounts on this form, check the details with your COBRA administrator and/or read the complete details of the government's ACT in the congressional record provided in the Primepoint web site under the Payroll Resources menu.

COMPANY NAME:_____
